DTO- Release notes

Release 18.7.0

IAA release

07/12/2021

DG Digital Transformation

Table of contents

1. Scope of the release

The objective of this document is to list the changes, modifications, decommissions, bug corrections that are part of the major release **18.7.0**

Timing
- Release on the INT environment   : Thursday, 28 October 2021 from 9am to 1pm (**done**)
- **2nd Release on the INT environment   : Thursday 09 December 2021 from 9am to 1pm**
- **Release on the PROD environment : Tuesday, 11 January 2022 8pm to midnight**

The main changes of this release are:

- **FAS UI Stateless**
  - The new FAS2-UI implementation has no visual functional differences and behaves the same as the previous implementation. It does provide more stability throughout the authentication process and is less error prone.
  - <u>Important remark</u>**: if you have monitoring active on the FAS, this new implementation is likely to have an impact on this functionality.
  Please consult the pdf 'BOSA_FASUI Stateless Change' for further technical details.**

- **Added itsme® to logon to DMA and HMA**
  - At the request of many users, itsme® has been added to authenticate on these applications.

- **'Unmask' feature for all password fields (XMA & FASUI)**
  - Users will have the possibility to hide and unhide their passwords in XMA and FASUI.

- **eIDAS: logging in 'with a valid European login method'**
  As the number of EU countries that have implemented eIDAS (currently 12 countries) continuously increases, the overview of the active countries is sorted alphabetically, according to the official country codes. (e.g. **AT** – Austria, **CZ** – Czech Republic, **DE** – Germany, …)

- **Typo fixes on the FASUI and SMA**

- **Backend bug fixes and corrections**

- **Optimalisation of internal applications**

This release covers :

FAS	https://iamapps.belgium.be/tma
My digital keys (SMA)	https://iamapps.belgium.be/sma
Role Management (RMA)	https://iamapps.belgium.be/rma

2. Know issues

Currently, no issues are known for this release.

Should you experience any errors or notice any abnormal behaviour of the FAS during your tests, please notify us immediately via servicedesk.dto@bosa.fgov.be (with reference 'FAS Release 18.7.0).
